

PRAY

for the Muslims of the Francophone World

Welcome to a 30-day adventure in prayer! This interactive PDF list can be used alongside the **30 Days of Prayer for the Muslim World** guide, available at pray30days.org (note that days 2, 3, 5 and 24 correspond to that guide). To learn more about a given country or people listed below, click on its name in this PDF. For a simple calendar highlighting one people group per day, see joshuaproject.net/resources/prayer_calendars.

NOTES

- The dates correspond to Ramadan 2016 (June 6–July 5), but you can use this calendar any time of year.
- Click on the country name to get more information on that country, including statistics, ministries, prayer cards, videos, links to other research and prayer sites, and much more.
- This number corresponds to all Joshua Project peoples in that country. For a discussion concerning “What is a people group?”, [click here](#). For an attempt to answer the question “How many people groups are there?”, [click here](#). A list of Joshua Project data sources can be found [here](#).
- This number corresponds to the number of Joshua Project unreached (least-reached) people groups for a given country. An unreached people group is “a people group within which there is no indigenous community of believing Christians able to evangelize this people group” without outside assistance (Winter, Ralph D., et al., eds. *Perspectives on the World Christian Movement: Reader*. William Carey Library Pub, 2009, pg. 536). [Click here](#) for a discussion of how the Joshua Project defines UPGs (unreached people groups).
- Click on the name of the people group (e.g., Arab, Moroccan) for more information on that group.
- An estimate of the population of a particular people group within a given country. In many cases peoples may be found in several countries, in which case the global number can be much higher.
- The estimated number of Christians (of any description) within a particular people group in a given country. Space limitations prevent us from giving global numbers across all countries; those estimates can be found on joshuaproject.net. In all cases, the peoples on this calendar are less than 3% Christian.
- The estimated number of Evangelical Christians within a particular people group in a particular country. In all cases, the peoples here are less than 2% Evangelical. *Note that these numbers are rounded at two places of the decimal.* Thus, 0.00% Evangelical doesn’t necessarily mean zero Evangelicals. In a population of 10 million people, 49,999 believers would 0.00%, while 50,000 would be 0.01%.
- While the JESUS Film is listed here, many other film resources exist and may be found in the “Resources” section of the page for a given people group.
- For links to audio resources in the language of a given people group, see the “Resources” section of the page for a given people group.
