

Welcome to Mary Ann's Book Corner

After years of service on the missions field - to introduce the French speaking world to Jesus Christ, we would like to introduce you to some excellent Christian literature that can change lives for Jesus Christ. As part of Bibles & Literature in French, we ask you to pray for the Francophone world - to come to know Jesus as Savior and Lord. *—Russ & Mary Ann Miller*

On this edition of Mary Ann's Book Corner, we are featuring the book "Unlimited Grace: The heart chemistry that frees from sin and fuels the Christian life" by Bryan Chapell. This book is published by BLF Éditions in French as "Grâce infinie: une puissance qui libère du péché et transforme de l'intérieur"

Here is a short description of the book:

We speak so often of "God's grace" that we sometimes forget about His supernatural power. By His grace, God closes the door to all our attempts to please Him in order to avoid His anger or to win His favor. But this goes much farther.

How does the grace of God alter our motivations and our affections? How can we rely on it to flee from sin and to obey wholeheartedly as God is waiting for us to do?

This book teems with references to Scriptures that will enable you to grasp why you have to rely on this unlimited resource. The more you draw on it, the more the Gospel will produce in you a joy that will transform your life from the inside. You will not only desire to know God better and His plans, but you will also be free to obey Him without compromise.

Please pray that many people, both French and English readers, will read this book and learn from it as they grow in living a life that is pleasing to their Savior.
