

March 2019

Hello partners in ministry,

It is with permission that I am sharing this testimony which is a direct result of the St-Jérôme campaign we did on November 4th, 2018. At the end of the event that night a few people who came as the result of church people inviting their friends, came forward at the invitation and continue to come to church and are being followed up by the church leadership. However, Mario Racine responded to the invitation that had come in his mail box at his door in an envelop. This had been sent by Every Home for Christ for the Evangelistic campaign event.

Mario had hit bottom in his life and had absolutely no hope even thou he was now a widower and 62 years old. Mario had look for answers in his life in the occult and found none. Having sought for happiness in gambling, he had lost a few relationships and his house. At 62 years old, he had nothing to show forth and had to work hard to make money to feed his gambling addiction. What he did not spent on gambling, he spent on erotic massages and strip joints. Mario knew he had become addicted and dependent on his vices, yet he had no peace in his heart and certainly no hope either.

Until he received the invitation through the mail from « Trouver l'Espoir ». Mario came to hear the testimony of Judive. It is on November 4th at an Evangelistic event that the Spirit of God touch the heart of Mario. It is there that he responded to the message of the Gospel and came forward. Mario has come to church faithfully since then except for a few times he missed at Christmas time because he was with family. Pastor André Bourque meets with him regularly and disciples him. Mario has since stop frequenting massage parlours and strip joints and has seen many victories in his gambling addiction but his victory is still not yet complete. Please pray for Mario to be totally freed from this addiction and for pastor André Bourque who works with him. Pastor André has also noted that the habitual vulgarities in Mario's vocabulary have also greatly improved through discipleship.

In my meeting with pastor André last Friday he expressed the desire of the church to continue to cultivate the message of the Gospel in the same area of St-Jérôme they covered last year.

They would like to have 7,500 invitation cards delivered to homes to announce their new evangelistic event they would like to scheduled for November 17, 2019.

They have requested that Toe-Blake Roy give his testimony with the theme: « Toe-Blake lance et compte dans le filet de la vérité » « Toe-Blake scores in the net of truth »

The time will be 10:30 - 11:45

There will be an invitation given at the end of the testimony and a literature table will be made available in the back.

I am working with our partner to see what we can do to help the church continue to cultivate the spiritual ground of St-Jérôme with the Gospel. I have also been invited to do a training session with the church people on August 25th.

Toe-Blake Roy, Director, BLF Canada
